ReSmart Cenvet

Case Study

KIPPAX Vet HOSPITAL

ReSmart partner since: **OCTOBER 2025**

How Kippax Vet found an easy way to reduce landfill waste

THE CHALLENGE

Tricky recycling streams (eg. bottles / cans, cardboard, mixed packaging) that were hard to manage.

THE SOLUTION

With the **Commercial Pack and a customised bottles and cans pack**, Kippax Vet **streamlined their recycling** - no more separating plastic from paper packaging.

Mixed streams **(bottles, cans, cardboard)** handled with ease. This **convenience** removed a major pain point, freeing up time for staff to focus on what matters most: caring for their patients.

> *Any practice wanting to reduce their environmental footprint should consider ReSmart.*

KIPPAX Vet HOSPITAL

The Impact:

ReSmart Cenvet

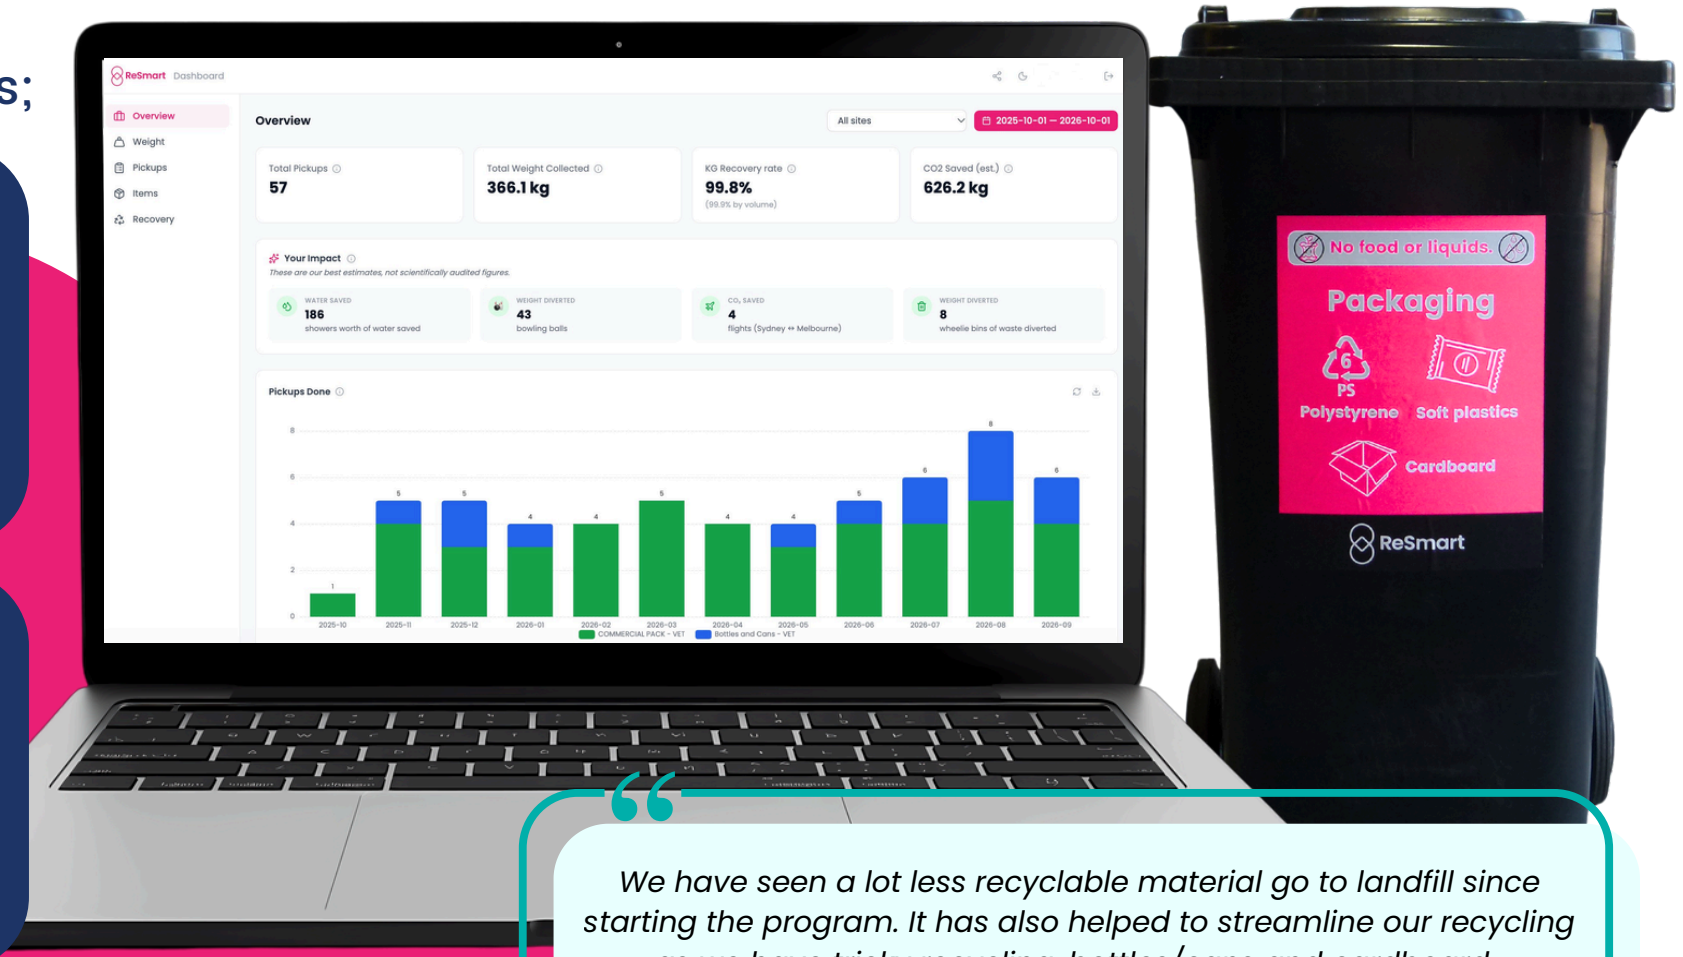

In the last 12 months;

3,791 L

of valuable resources saved from landfill

57

seamless Pickups

> *We have seen a lot less recyclable material go to landfill since starting the program. It has also helped to streamline our recycling as we have tricky recycling, bottles/cans and cardboard.*
